AMENDMENT B

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In a telephone conversation with the Examiner that occurred on April 4th, 2005, the Examiner indicated that he had not yet received the response to an Office Action that was (according to PAIR) received by the patent office on September 20th, 2004. In the same telephone conversation, the Examiner indicated that it was his understanding based on information that was before him, that the previously filed response had possibly been considered non-compliant, although we were unable to confirm what perceived problems there might have been. Additionally, it was apparently clear from the record that no notice of non-compliance had been mailed by the PTO. Therefore, in an effort to move this case along, we are submitting this supplemental amendment, which is believed to be fully compliant with the rules. Since it is not clear that the earlier amendments were entered, the enclosed amendments are made relative to the claims as originally filed (as opposed to their state as amended in the previously filed response). In view of the foregoing, please amend the above-identified patent application as follows:

Amendments to the Specification begin on page 2 of this paper.

Amendments to the Claims are reflected in the listing of claims which being on page 3 of this papers.

Amendments to the Drawings begin on page 5 of this paper and include an attached replacement sheet.

Remarks/Arguments begin on page 6 of this paper.
